## Questions to ask my doctor about managing my blood pressure

Please print this page and discuss the following with your doctor at your next appointment.

Questions	Doctor response
What's the recommended blood pressure goal for someone with Coronary Artery Disease (CAD)? How is the goal for my blood pressure determined?	
Should my blood pressure medication dosage be changed? Should I start a new medication?	
Is it safe to take with my other medications? Are there any medications I should stop when I start this one?  Are there any side effects I should be aware of? What should I do if I have any of these side effects?  Is it the most cost-effective choice? For example, does it have the least expensive copay? Is a generic form available?  What strength are you recommending? How many times a day do I need to take the medicine?  What should I do if I miss a dose?  Do I need to avoid alcohol or any particular foods while taking this medicine?	
Are there other things I should do to decrease my blood pressure? Is there a particular diet such as the DASH diet I should eat? Do I need to lower my salt intake? What should my goal be?
